The MAYORS FOR PEACE still face a challenge. Negotiations must begin NOW for an internationally legal frame to build a global zero solution to seize the current opportunity by reversing the global trend of armament and to achieve a world free from nuclear weapons by 2020.

Nuclear disarmament

and a world free from nuclear weapons

.....OF LIGHT.....

..... JERUSALEM

The PEACE LIGHT OF ABRAHAMIC RELIGIONS

February 2-7, 2011

is a colorful bright luminary of the
Light Painter Leo Lebendig, Germany.
It shines in the Dormitio Church in Jerusalem,
the location where the Virgin Mary has fallen asleep.

The Basilica Dormitio of Benedictine Abbey is located in the Center of Jerusalem on
Mount Sion, a few couples of steps away from the Wailing Wall, the Church of
Resurrection, the Dome of the Rock and the Al-Agsa Mosque on the Temple Mount.

The PEACE LIGHT OF ABRAHAMIC RELIGIONS
invites to a peaceful acceptance of all differences between
Jews, Christians and Muslims.

Jerusalem is the first station on the pilgrim trail of the
PEACE LIGHT OF RELIGIONS,
which has started in Germany in the
European Capital of Culture "RUHR 2010".

It is going to Hiroshima in the hope of a worldwide peaceful coexistence without

nuclear threat until 2020. **UN World Interfaith**

The cultivation of earth requires a holistic perception of the “planetary living”.
We humans as integrative components and individuals contributing to change are called upon to maintain
this system.

Personal commitment to the earth as a habitat requires public determination.
